Mr. Gilman spoke on the prog-ress in the camp program since he spoke to the club about four years spoke to the club about four years ago. On Monday when he spoke to the club there were 12 camps operating in Michigan with 1,029 inmates. He told the club that during 1956, 2,946 inmates were in the camp program with a record of 20 walk-aways, about 1 per cent. Ninety-nine per cent of the walk-aways was to control to the specific ways were book in control. walk-aways were back in custody within 48 hours.

Mr. Gilman extended a blanket

invitation to the club to lanker invitation to the club to hold a club meeting in the near future at Camp Pugsley located near Fife Lake. This camp is the newest in the program. Mr. Gilman then screened a film for the club members which showed most of the camps-and work that the inmates camps-and work that the inmates do. There was much footage on Camps Lehman and LaVictoire, both of which are located in Crawford County.

As a general rule, Jack Pine does not show any great particular interest one way or another in the promotion of Great Causes, such as the current polio drive for funds. But polio seems to me to be different. Maybe it is because I have relatives who were and are polio victims. Maybe is because I have lost childhood and adult friends to the disease and adult triends to the disease. And maybe it is because I can see how public apathy has taken hold to such an extent that parents are not "bothering" to have the children get all three shots. Not only that, they aren't protecting themselves, either. And polio is by no means a "children's di-sease". As for me, I will suppor-the polio drive with my dime-and dollars (depending on my means), for one reason. And that is to help bring back to as near a normal condition as possible those who have already been crippled by Polio. There is not much we can do for those stupid enough not to bother with the shots. But there is an awful lot we can do for those who no long-r have the choice. Why not do er have the choice. Why not do as Jackie Gleason suggested on his TV show measure your child's height, and stick dimes on

Cuts in the highly progressive income tax rate would probably produce more rather than less revenue, by stimulating investments and speeding the nation's economic for the carnival.

Alex McKinnow and Allen Gerow, of Clare, were guests at the Roy Milnes home Sunday, coming for the carnival. stimulating investments and speeding the nation's economic growth. That is one facet of a statement sent to a House subcommittee on taxation by the Chamber of Commerce of the United States.

A similar belief has been expressed by Ernest G Swigert, president of the National Association of Manufacturers. In his view, normal economic growth, by providing increasing revenues to the government would make possible reductions in both individual and corporation income tax rates without adding to any-

The Chamber's statement said that across-the-board reductions could be made even in a period of high defense outlays through a sound program of controlled spending and borrowing by the federal government, plus the increased revenue from a fair and reasonable tax structure which would not be a deterrent to individual initiative and investment.

Views such as these certainly deserve the careful attention of the Congressmen who will deal with possible changes in the tax laws this year. If more money is left in the hands of the people, then more money will go into investment and into the channels of trade and that in itself will be a strong stimulant to the government's tax take.

Finally, the more important parts of the Hoover Commission recommendations remain to be acted on. And here is a place where we can save billions a year, without in any way imperiling essential government

# the look on its fuce!

Wouldn't you say that most of the '57 cars look good from 50 feet away, but what about from 50 inches away?

What does a close-up of the grille tell you, for example? Is it solidly made like the new Chevrolet grille? Or, in comparison does it look less rich in design-feel less strong and solid? Compare the quality and construction of the bumpers and headlights, the fit of the chrome trim.

The more closely you look all around the car, the more clearly you'll see that Chevrolet has the edge in the way it's put together. You'll find, for instance, that Chevrolet is the only car in its field with a lacquer finish . . . that only Chevrolet Bel Air models give you foam rubber cushions in front and rear seats as standard equipment. These are just a few of the advantages of Body by Fisher. And Chevrolet, you know, is the only low-priced car that has a Fisher

Last Friday night was a big night for Grayling. The high school ball club was clicking and everything went fine. Our boys hit their stride and defeated Lake City, a truly formidable opponent by the rather lop-sided score of 35 - 24. The Reserves lost by a one-point margin in the last minute of play. The game Saturday night was to have been played here, but for some reason it was necessary to change the schedule and the team went to Roscommon instead. This contest was another one of those hard luck sessions for the Green and White. The old hoodoo again descended, and try as they might, the boys simply

as they might, the boys simply couldn't find the hoop. They played hard, and held their own until the last few minutes when Roscommon put on a determined spurt, to close the game with a score of 16-18 in their favor. The Reserves took a hard 12-13 defeat to make the evening complete.

# AN OPEN LETTER...

The weekend starting Friday, February 8th is the 32nd Annual Grayling Winter Festival weekend. As such, it climaxes nearly a year's work and planning. It is hoped that this Festival Weekend will be the biggest, the grandest, the finest that Grayling has ever witnessed in its thirty-two years of winter festivals.

and there is no reason that it can't be.

From beginning to end, our planning has been governed by two purposes, both equally important. First, our constant aim has always been to attract attention to the finest family-type winter sports park in the State of Michigan. And secondly, all the plans, the entertainment and the schedule have been made with the people of Grayling in mind. For, after all, the show is for everyone, tourists and local residents together.

With this year's festival, we feel we have achieved our double goal.

Starting at 6:15 Saturday, February 9th, at the new Legion Hall, you can see the grand procession of the Queens . . . one of whom will be chosen that night to be the Official Winter Sports Queen for the State of Michigan. You will enjoy a banquet, the best that we can possibly arrange. At nine o'clock, in the High School gymnasium, you will be able to dance to the music of Hal-McIntyre, one of the outstanding dance band organizations in the country today.

And at the stroke of midnight, the Queen will be presented, and you can enjoy, with her, this great thrill that comes so seldom . . . and to so few.

And then, on Sunday, you will be able to witness skiing, skating and tobogganing at the Winter Sports Park and to enjoy the rare and beautiful sight of the Official Queen and her court reigning over the park, and all of Michigan winter sports, from the magnificent ice throne unequalled anywhere.

We have planned this weekend for you . . . we want you to join with all of us in helping to make this grand festival the proudest moment in Grayling winter sports history . . . to mark the leadership, once again, of Grayling as the Winter Sports Capitol of Michigan!

We urge you to purchase your tiekets, to make your reservations early, for the Saturday night banquet and dance, so as not to miss a bit of the fun and festivities of Carnival Weekend!

We know you will have a WONDERFUL time!
